### ELECTRIC BALL CLOCK KIT

A most unusual timepiece. As the electric pendulum rotates, it scoops up one ball every minute. The ball rolls from one track to another marking time in minutes, 5 minutes and hourly segments. Fascinating—almost unbelievable.

### BATTERY OPERATED BATTLE CRUISER

The incredible battle cruiser. Plug in the remote control energizer and you're in control. Build as many as 7 toys at one time. Press a button and the nose becomes a plane. The wings detach to form missile firing scout cars. Overall there are 72 parts that combine to make 25 different toys. Requires two "C" batteries. (Not included).
