

Only \$299

gets you a Dahsen mini stereo space-saving system with many of the performance features found on full-size components

If you're tight for space but don't want to give up quality sound, this powerful little stereo is for you!

AM/FM-stereo amplifier delivers 18 watts RMS per channel.

AM/FM-stereo tuner has special circuitry to give you sensitive FM-reception, low sound distortion and wide stereo separation. FM muting silences receiver while tuning between stations.

Cassette deck plays/records normal and CrO₂ tapes. Right and left recording level controls plus two 5-step LED peak level indicators help you control the desired sound.

Each speaker houses a 10 cm (4") (30 Watt) woofer and 5 cm (2 1/2") (30 Watt) tweeter to give you impressive full-range sound.

Grab some big sound from a mini stereo. You can at the Bay. Model Q-2020.
