

## Quite a spin/Quite an adventure

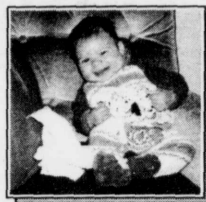

The Brodersons were heading towards Vanderhoof when the van they were travelling in hit an icy patch of road. The driver lost control and the van spun across Highway 16, slipped into the ditch and ended up pointed towards Prince George.

Inside the van, were two adults, nine Broderson children and one other child. No one, however, was injured in the accident which occurred last Wednesday.

The children, ranging in age from one to 15, took the detour in stride.
