

Originally from Ottawa, Peter now resides in Toronto. His song Norman's Ride won him the Composer of the Year Award at the 1993 Central Canadian Bluegrass Awards. This song also notched him a second place finish at the Chris Austin Songwriting Contest, held last spring in conjunction with the Merle Watson Memorial Festival. Peter is the only member of the band to own a front wheel drive lawnmower.

GEOFF SOMERS plays mandolin, fiddle, sings tenor and lead, and does his share of the MC work with BLUE MULE. He is an accomplished Canadian Old Time fiddler, and even knows a few old time dance steps. Geoff has won many awards at fiddle contests, as well as earning his Bachelor of Music degree from Queen's University. Geoff hails from Toronto, and proudly wears his BLUE MULE Bald Headed Wig.

GARRET DOYLE, from Hamilton, handles the bass guitar and sings lead, tenor, baritone and bass. He is also an accomplished banjo player and has a mean claw-hammer style. Garret is an exceptional songwriter, and serves the band as an excellent source of original material. He golfs in the low 90's and knows every Mini-Putt course in the Toronto area.

JORDY SHARPE plays banjo and is well known in bluegrass circles for his innovative driving style. He also plays dobro and bass, while further contributing to the band by writing instrumentals and songs. Originally from Toronto's "Hogs Hollow", Jordy lives the bluegrass life at the Forks of the Credit River, in a little cabin home in the pines. Jordy enjoys the finer side of festivals, and is renowned for his culinary specialty, Fettucine with Asparagus Tips.

**PORTABLE
POWER.
NO SWEAT.**

When you're away from home, you shouldn't have to worry about the small stuff. Like where the power is coming from.

So put your trust in powerful friends - Yamaha's line of portable generators. They deliver from 600 to 6000 watts of smooth, quiet power. The king of generators, they get

you off to fast starts. And their new two-year warranty delivers peace of mind. They'll keep you going as long as you do.

So don't believe them when they say you can't take it with you. Because, thanks to Yamaha, you can.

Yamaha Generators. Have power. Will travel.
