

Whitewater Adventure: **RAFTING TRIP**

CNC International Education and the CNC Students' Union organized a one-day rafting trip on the Athabaska river in Jasper, Alberta. This marks the first summer counterpart to the annual ski trip organized by International Education and the Students' Union around reading break every year.

Approximately 30 students, staff and faculty from CNC took part in the adventure, rushing down class 2 rapids in guided rafts. The 12km watercourse challenged the teamwork and paddling ability of everyone involved. Everyone was soaked to the bone, but ended the day with grins on their faces.

This was the first time that many international students got to see the Candian Rockies showing some of the most beautiful scenary in all Canada. The Students' Union and International Education have plans to make the trip an annual event covering other major destinations in near future.
