

Health and Human Services Representative Nominees

Shaun Edwards

Program: **Nursing**

My Goals: "In my experience as a first year student, I noticed that it was a gong-show getting in here. Nobody knew what was happening, teachers didn't know what was going on, the orientation was a gong-show. If I could make a difference in one persons life when they come here, to show them where everything is, where to go, who to talk to, that would be success in my mind. There was a lot of complaints of labs and the lack of education going into the hospital that I would like to face."

Indigenous Representative Nominees

Brandon Jack

Program: **Academic Upgrading**

My Goals: "My goal is to make the students union better, make the events fun and do my best hosting events that I have planned. I plan on helping out everyone as best as I can."
